

## Environment and Ethics Officer REPORT

Term 1 2017 (November & December)

### What I've done

Attended the NUS Student Eats Conference and NUS Student Sustainability Summit at Coventry University, and wrote a small summary which you can find on the FXU website here: [NUS Student Eats Conference and Sustainability Summit](#). I was involved in the 'Catering on Campus' Leadership Team Meeting discussion which led to a new vegan hot sandwich now available in the Stannary Deli. Had a meeting via conference call to Streatham Campus, for the SVCCG (Sustainability Vision and Change Catalyst Group), being the first environmental representative from Penryn Campus to be a part of this group, ensuring that Cornwall is represented within the meetings.

### What I'm doing

I will be part of the Catering Liaison Group, now set to meet in the Spring Term. I will also be involved in the catering focus groups, to represent sustainability and vegan options moving forwards. Reviewing applications to the Green Fund. Considering how we can implement People & Planet's 'Go Green Week' in February 2018 on Penryn Campus.

### Other

Penryn Produce, the new vegbox scheme on campus will be going live in January!
