

## MISS ABBIE BANNER

Abbie Banner, BSc Zoology

As a bioscience student, I am passionate about protecting and maintaining the environment. It is crucial now, more than ever, to drive forward with our advancements in sustainability, especially in University life.

I aim to:

- Gain more vegetarian and vegan options in campus outlets, for example the Stannary, Koofi, Fox Café Bar and the Campus Shop, such as vegan cakes.
- Collaborate with societies such as The Beach Clean Project, to organise entirely inclusive involvement for students in beach cleans at Gylly Beach, once a term.
- Promote involvement in activities with the Green Living Society.
- Obtain more recycling bins to be placed alongside waste bins, across the Woodlane and Penryn campuses.
- Endorse the Keep Your Cool campaign, aiming to encourage the use of reusable water bottles and reduce single-use plastic bottles.
- Publicize more widely the discount in the Stannary and Koofi for the use of reusable drinking vessels.
- Advertise Fairtrade coffee beans being used in all outlets across both campuses.
- Potentially restart the Resistance Is Fertile farmstall – local food that reduces food miles and waste packaging.

Overall I aim to promote more campus-wide awareness of sustainability, by both pushing forward new ideas and increasing visibility of schemes currently in place. I believe all these are feasible goals to aim towards across the year.

I would love to have the opportunity to integrate these ethics into campus life, and for these ideas to become a reality that benefits everyone.
